Objective

Passionate and dedicated Computer Science Engineering student with strong skills in Python, Java, HTML, CSS, and C programming. Seeking internship or entry-level software development roles to apply technical knowledge and build innovative real-time projects.

Skills

- Programming Languages: Python (90%), Java (85%), C (80%)
- Web Development: HTML & CSS (95%)
- Database: SQL (75%)
- Tools: Git, GitHub, Visual Studio Code

Projects

- Weather Prediction System: Developed a machine learning-based system using Python to forecast weather by analyzing historical data.
- Supply Chain Management System: Built an application managing inventory, orders, and real-time analytics.
- Scientific Calculator: Created a GUI scientific calculator with multiple mathematical functions using Java and Python.
- Rescue & Medication App for Stray Animals: Designed an app for reporting injured animals with medication guidance and task verification.

Certifications & Achievements

Completed 5 certificates in programming and development.

Education

Sreyas Institute of Engineering and Technology

Bachelor of Technology (B.Tech) in Computer Science Engineering — 3rd Year
